temperature stable PET container
(>120C) without nucleating agents.

Florian Bamberger

Founder @ Thermapet

Bangkok Metropolitan Area

Summary

Executive leader with 20+ years in sustainable packaging, polymer converting, and industrial automation, building and scaling businesses across APAC and Europe. I combine CTO-level innovation (patented mono-material PET thermoforming, SGS-certified to 220 °C, bottle-to-bottle compatible) with executive commercial leadership, consistently delivering growth through market entry, distributor ecosystems, and key-account development with FMCG and industrial clients.

My background bridges film extrusion, coating, lamination, thermoforming, and recycling with robotics and automation for MRO and industrial processes, giving me unique technical credibility when shaping solutions and growth strategies. I have repeatedly exceeded sales and P&L targets while leading multicultural teams and advancing circularity and ESG goals.

Experience

Thermapet Technologies Pte Ltd

Founder & CTO

January 2024 - Present (2 years 4 months)
